About

iDiversity Consulting

iDiversity Consulting delivers a much-needed set of services specialising in Diversity, Disability, Inclusion and Technology solutions to help individuals and organisations, from education to business.

We can provide a complete programme of initiatives that help to achieve your Diversity and inclusion (D & I) aims, including training, coaching, disability assessments, as well as advising on accessibility and marketing communication. We have an in-depth knowledge of assistive technology to help disabled individuals and to support greater inclusion for all.

We're here to help organisations create and deliver a range of solutions that, in a nutshell, help you support your people in an inclusive way.

Disability solutions is at the heart of what we do and Iansyst Ltd, established for over 38 years, is part of our new iDiversity Consulting business

About

Iansyst Ltd

As a leading UK Assistive Technology and disability services supplier for over 38 years, iansyst experts provide exceptional assistive computer technology, consultancy, training and software for people with disabilities including dyslexia, autism, dyspraxia, visual and hearing impairments, dyscalculia and also individuals who require physical solutions.

Iansyst are a leading DSA approved supplier and an Access to Work provider. Over the years, we have helped thousands of individuals at university, in the workplace and at school achieve their full potential through the correct support, which has enabled them to become more confident and independent

Iansyst has always been at the forefront of digital accessibility and making the most of what technology can offer, so you'll not be surprised to know that we have been able to offer our clients the option of having their training, coaching and assessments remotely for some time now.

About Dyslexic.com

The Dyslexic.com website (provided by iansyst Ltd) is your one-stop shop for assistive technologies used to improve the functional capabilities of people with disabilities. Whether you are a parent looking to help your child's development, a student in education, or you need help in the workplace we have solutions to support and improve your reading, writing, spelling, numeracy and organisational skills.

With over 38 years of experience we supply products and services for a range of disabilities:
Dyslexia, dyscalculia, visual stress, visual impairments, hard of hearing and ergonomics solutions to help promote independence and productivity.

This Brochure is a taster of some of the products and services that we can supply. For more information and prices on these and other products can be found on our website:

Kaz SEN/Dyslexia Typing Tutor

Typing Tutor

Platform (Win/Mac)

Licence Type (Single/Subscription/Multi)

Format (Download)

The ONLY typing tutor developed with advice and guidance from the Dyslexia Research Trust and incorporating a multi-sensory approach throughout. Designed for all dyslexic users, the KAZ's NEW HTML SEN/Dyslexia Typing tutor teaches typing skills whilst minimizing disturbances related to visual stress, by means of a unique 'Preference Screen'.

The screen offers the user a selection of options:
• Choice of coloured background/filter screens – for reducing white screen glare
• Choice of 2 specific DRT research based background/filter colours – for steading letter movement and blurring (the program has been specially adapted to replicate as best possible the effect of these coloured filters)
• Choice of 7 dyslexic friendly typefaces (including 2 licensed dyslexic fonts) – for ease of reading.

KAZ Touch Typing Program – City & Guilds Assured

Typing Program

Platform (Win/Mac/Mobile)

Licence Type (Single/Subscription/Multi)

Format (Disk/Download)

The KAZ Touch Typing Program – City & Guilds Assured has been designed for ages 15 plus and is suitable for both mainstream and neurodiverse learners.
The program consists of their award winning 'accelerated learning' course, plus a 'NEW' City & Guilds assessment module comprising a 'Multiple Choice Paper' and 'Typing Test'.

Using specific combinations and progressions of just 11 words in 5 scientifically structured phrases, the method trains the fingers on both hands to work symmetrically and simultaneously – a direct result of both hemispheres of the brain working at the same time –'brain balance'. No other typing tutor works in this way.

MIND MAPPING & TASK MANAGEMENT

Mindmapping & task management can help the user with organisational skills, project lists and deadlines along with creativity and processing information.

Inspiration 10

Visual Mapping Software

Platform (Win)

Licence Type (Single)

Format (Download)

For visual mapping, outlining, writing and making presentations, use Inspiration 10, the ultimate thinking and learning tool. Inspiration software allows you to brainstorm ideas, structure your thoughts and visually communicate concepts to strengthen understanding with the Diagram and Map Views.

To take notes, organise information, and structure writing for plans, papers and reports, use the integrated Outline View to focus on main and supporting ideas and to clarify thinking in written form. With Inspiration's Presentation Manager, transform your diagrams, mind maps and outlines into polished presentations that communicate ideas clearly and demonstrate understanding and knowledge.

Create webs, idea maps, mind maps, concept maps, graphic organizers, process flows, and other diagrams for thinking, organising and writing.
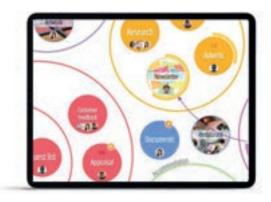

16

AYOA

AYOA is an all in one mind mapping software solution and whiteboard collaboration app designed to embrace differences, elevate creativity and drive results.

Designed for a number of different people with different working methods to all collabrate in an effective, productive way that makes the ideas shine through.

Being designed with diversity in mind, this give the ability for it to be fully utilized for both neuro-diverse and Neurotypical people to work together.

AYOA's intutive design can help people focus from the distractions that may surround them by creating a workspace that suits the individual. Some features include: tabs to break down complex information, changing the background colours to suit any preference, solo brainstorming mode, easy view switching sections and more.

AYOA is available on Windows, Mac and Mobile devices.

booost

Booost is more than just another calandar or task management app. Booost does all the things you would expect – add events and tasks, set reminders and never miss a deadline – but the power of Booost is in what happens next...

Focus and break down activities

Booost breaks events and activities down into manageable steps to help students complete tasks and navigate challenging situations.

Get help whenever it's needed

Reach out to your personalised support network or get specialist support from trained volunteers any time, any day.

Reflect and plan ahead

Look back at accomplishments and daily mood tracking, and look ahead at tomorrow's agenda.

Smart guides written by experts

An extensive library of specially created guides, tips and advice, presented intelligently for the current focus.

Establish routines and healthy habits

Suggested routines to start the day strong, and wind-down at the end. Create custom routines that can be reused at any time.

Maximise free time by Booosting

Quickly schedule time for tasks and get smart suggestions on what to focus on, or set time aside for personal wellbeing.

Mind View AT Suite

Mind Mapping Software

Platform (Win)

Licence Type (3 year subscription)

Format (Download)

MindView is a professional mind mapping software that allows you to visually brainstorm, organize and present ideas.

With powerful MS Office integration, comprehensive project management features and collaboration options, MindView has become the industry leader in mind mapping software.

MindView has the industry's best Microsoft Office integration available for mind mapping software. This guarantees ROI for mind mapping users as the re-entering of data is not necessary when compared to traditional brainstorming and whiteboard sessions.

iansyst

AcceleRead AcceleWrite

Guide to Using Talking Computers to Help Children Learn to Read and Write

Getting the most out of your Text to Speech software

AcceleRead AcceleWrite Guide by Vivienne Clifford and Martin Miles provides full instructions on how to use a computer with text to speech software, to improve reading, writing, spelling and listening skills of pupils who are experiencing literacy difficulties. This is achieved through structured phonics exercises over a recommended period of time. This detailed electronic manual (previously a book, now a PDF on a CD-Rom) explains the theory behind the approach.

Features of the Approach

- It is multi-sensory.
- Develops visual and listening memory.
- Highly structured to allow the learner to progress at their own rate.
- Builds in regular revision.
- Progress can be evaluated and measured.
- Highly motivating with consistent feedback.
- Encourages typing skills.

Global AutoCorrect

Spelling Software

Platform (Win)

Licence Type (Single)

Format (Disk/Download)

Global AutoCorrect PC is an intelligent spelling software for dyslexic students. It automatically corrects spelling mistakes as you type, without distracting red lines appearing. Global AutoCorrect saves you time and helps you to focus on what you're writing by automatically and intelligently correcting your spelling as you type.

Improves productivity
With automatic spelling correction you can reduce red underlines, spend less time spell-checking and focus on the creative process of writing.

Intelligent corrections
When you make a mistake, the software analyses the sound patterns in the word to understand what you're trying to spell. This intelligent correction happens instantly.

Add custom corrections
If the software's not quite sure what you meant, it won't just guess. Instead, you can pick the word you meant and it will be autocorrected in the future.

Works in all programs
No plugins or configuration needed – no matter which program you're using, Global AutoCorrect will automatically correct your spelling!
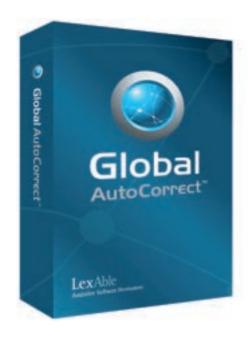

Wordshark v5

Read & Spell Learning Software

Platform (Win/Mac)

Licence Type (Single)

Format (Download)

Wordshark encourages the serious task of learning to read and spell with fun literacy activities Wordshark is an important teaching resource for improving spelling, reading and motivation.

Based on 'Alpha to Omega' and compatible with the National Literacy Scheme, it uses over 55 games to reinforce reading and spelling using 9,000 pre-recorded words. Wordshark is designed for Key Stages 1–3 and includes KS1–2 word lists and KS3 subject word lists, but is also great for secondary and adult users as it includes higher level word lists.

Wordshark is ideal for children with dyslexia who may have become disillusion with the learning process and require additional motivation with these fun and confidence building games.

Workplace Needs Assessments

Our Consultants will work with an employee to understand their role within the company and the skills they have to help complete a full assessment within the context of their job and work environment. In addition, support services will be outlined including developing effective workplace strategies to help overcome difficulties.

Our Assessment Consists of:

- A detailed discussion with the employee on their role, responsibilities & working environment.

- Understanding the difficulties experienced, as a result of their disability, and how they impact on their role.

- Making recommendations for workplace adjustments and identifying any specialised requirements e.g ergonomic, assistive technology, working practices etc.

- A comprehensive report will be submitted, detailing findings, with recommendations, and a quotation for supply of any products if appropriate.

In Addition

Support services will be outlined including developing effective workplace strategies to help overcome difficulties.

For more information our our assessment service visit our website www.iansyst.co.uk or contact us on 01223 420 101

02 HARDWARE

From a simple colour overlay to world leading technology, hardware is here to help take control of everyday situations that would otherwise made life more difficult.

PORTABLE & DESKTOP SCANNERS

Books, magazines or any printed matter can be captured in a flash with a scanner. Save it for later use or discover a new or unsual word with a portable device.

Springboard Keyboard

Suitable for Cerebral Palsy Users

Qwerty keyboard

Soft Rubber Keys

Created by a user with cerebral palsy, Lime Assistive Technology's Springboard PC-1 is a rugged and compact soft touch silicone rubber QWERTY keyboard featuring an integrated keyguard designed to offer users with involuntary movements a more accessible computer experience.

## Slim line Joystick

4 Cursor Speed Setting

Platform (Win/Mac/Mobile)

Touch Sensative Buttons

The Slimline Joystick is perfect for smaller hands as it has a small footprint and a low profile, allowing it to be used comfortably for extended periods by younger users.

The Slimline Joystick has four cursor speed settings allow the unit to be configured for the user's precise needs.
Each of the two touch sensitive buttons may be programmed to be left click, right click, double-click or drag-lock and two sockets allow external switches to replace the touch buttons where required.

Features
• Audible feedback for the touch buttons
• USB connection with Plug and Play, and compatible with PC, Mac, Chromebook and tablet devices that support external mice.
• Does not require any driver software to be loaded onto host computer- ideal for managed computer systems often used in schools.
• Speed settings and button functions retained if the unit is unplugged or powered down.

Contour RollerMouse Red

Designed with Ergonomics in Mind

Platform (Win/Mac/Mobile)

Textured & Thicker Roller Bar

The RollerMouse Red is placed in front of the user to eliminate awkward gripping, reaching or straining associated with a traditional mouse. Avoiding these movements increases efficiency and productivity.

A textured and thicker roller bar coupled with 7 sensors greatly increases cursor precision and reduces muscle effort. The RollerMouse Red can reduce muscle effort in the forearms by up to 20%, as it lets you perform tasks with fewer muscles and a neutral hand position.

It works well in compact spaces, and for users with average to small hands. RollerMouse Red also provides more palm support and a smooth, soft and comfortable transition between your RollerMouse and desktop, distributing pressure over a wider area. RollerMouse Red is ideal for use with mountable keyboard trays.

Contour RollerMouse Pro3

Ideal for Extended Use

Platform (Win/Mac/Mobile)

3 Different Mode Options

The Contour Rollermouse Pro3 is a great option for professionals and anyone else who uses a mouse for long periods every day.

Sitting below your keyboard, Pro3 eliminates the need to reach for the mouse, lessening stress from your neck to your fingers. The width of this RollerMouse makes it especially suitable for standard or full-size keyboards for comfortable typing.

Rollermouse Pro3 allows you to work faster, and more comfortably. With adjustable features the Pro 3 is designed with helpful features such as copy – paste button with one click, 3 different mode options and the option to customize your click force and cursor speed. Choose from ten cursor speeds ranging from 600 to 2400 dpi by using the central cursor speed button. Blue lights signify which speed setting you are currently using from lowest to highest.

DIGITAL RECORDERS

Digital recorders are ideal for anyone with dyslexia and people who need support with note-taking.

Olympus DM770 Digital Recorder

Three Stereo Mircophone

Mirco SD

6 Scene Modes for Optimal Recording

The Olympus DM-770 has three stereo microphones which takes the audio quality capture to another level and makes the sound quality more balanced. Audio is saved on the digital recorder as either MP3, WMA or Linear PCM files which exceeds CD quality.

Olympus DS-9000 Digital Recorder

2 Mircophone System

Precise 4 Position Side Switch

2.4" Colour Display

The Olympus DS-9000 System Edition features a 2.4″ colour display, intelligent 2 microphone system and device locking and is the ideal solution for use with Dragon NaturallySpeaking speech recognition software
Every professional sector involves sensitive information in the workplace that needs to be safeguarded by the strictest data security

Olympus VP-10 Pen Digital Recorder

Advance Audio Recorder

Anti Rustle Filter

Instant Operations

The new Olympus VP-10 gives a new dimension to digital business recording. Although discreet in design, this advanced audio recorder tool offers high-quality stereo recording and a host of convenient features for instant operation and clear recordings.

Olympus WS-852 Digital Recorder

High Performance Recording

Low Cut Filter

Smart Functionalilty

The Olympus WS-852 digital voice recorder combines high-performance stereo recording with smart functionality. This not only makes it a pleasure to use, but also easy to handle in any situation.
The Low-cut Filter efficiently eliminates lower-frequency noise.

Neo smartpen

With a variety of different pen options as well as the Smart RECO recording device you can keep detailed notes that will be organised and easy to access.

The Neo Smartpen digitises the handwritten data created on the digital notebooks (digital paper).
The Neo Smartpen will save the data on a connected mobile device.

With added cloud syncing you can match up your notes on all your devices.

Neo Smart Dimo

Smart Pen

Converts your Writing to Digital Files

Neo Pen N2

Smart Pen

Converts your Writing to Digital Files

2 Colour Options

Works with Neo digital notebooks

The Neo Smartpen N2 has an internal camera that captures your handwritten texts and converts them to digital documents when the pen syncs with Neo Studio app. The digital pen has 90MB of internal storage so you can transfer your stored handwriting data at a later time.

Neo Smart RECO

Voice Recorder

Time Stamping System

Small Portable Design

The voice recorder that keeps track of your notes written on paper. Meet the recorder that will change the shape of your classes and meetings. When you write notes on paper while recording the audio, they are instantly time stamped with the time code. It means that you do not need to waste your time fast forwarding and rewinding to replay specific parts of your recording.

VISUAL IMPAIRMENT SOLUTIONS

Our range of visual impairment hardware promotes independence. The handheld magnifiers are ideal for tasks like reading or viewing small print when the user has low or poor vision. Desktop magnifiers can also have text–to-speech so content is read aloud.

With the OrCam smart reader device you can aid in full page reading, identifiying people, or even counting change in your pocket. This can radically change the life of someone with VI needs.

About OrCam

OrCam's mission is to harness the power of artificial vision by incorporating pioneering technology into a wearable platform which improves the lives of individuals who are blind, visually impaired, and have reading difficulties.

OrCam was jointly founded in 2010 by Prof. Amnon Shashua and Mr. Ziv Aviram, who are also the co-founders of Mobileye, the collision avoidance system leader and autonomous driving innovator. The original OrCam MyEye device was launched in 2015, and the next generation OrCam MyEye 2.0 was launched in 2017.

Please note that type 03 receivers cannot be used with Roger inspiro transmitters.

Conversor Pro

Personal Assistive Listening Device

Boost Audio Volume

Reduces Background Noise

The Conversor Pro for personal assistive listening to boost audio volume and remove background noise.
The Conversor Pro is an affordable assistive listening device that offers users the versatility to enjoy the most out of everyday life. With unmatched comfort, ease of use, and wireless portability.

It is designed for easy use with Telecoil-equipped hearing aids, cochlear implants, and binaural headphones or earbuds. The Conversor Pro focuses on desired sounds, near or far away, filtering out unwanted background noise up to 30 db, and greatly enhancing sound level and clarity. By removing background noise, the desired sound is much clearer and more intelligible, even in noisy environments. And by increasing the available sound level, less strain is placed on hearing aid amplifiers, eliminating distortion and feedback.

With The Conversor Pro, users can now take a more active part in everyday listening situations, without the frustration of not hearing properly. It enables easy listening and relaxed conversation anywhere users happen to be – whether in the classroom or office, at social gatherings, driving in the car, out shopping, or at home.

KEYBOARDS & MICE

When using computer a daily basis think about which parts of it are used to interact with it the most.

For most people that is the keyboard, mouse or trackpad. This is why it is vital to get one that feels comfortable, has the features that may be be required and is reliable.

There are a variety of keyboards and mice suitable for a range of needs, from high visibility keyboards, ergonomically designed input devices and those for everyday use to be used with computer systems or laptops.

GoldTouch Numberpad Black USB

Reduces Repetitive Strain

Platform (Win/Mac/Mobile)

Recommended for Extenstive Data Entry

The repetitive motions associated with data entry can put a big strain on fingers, wrists, joints and nerves.
Whether you make frequent calculations, or only perform number-intensive tasks once in awhile, an external numeric keypad is an excellent way to speed you through the data entry process.

Goldtouch Go Keyboard

Ergonomic Designed Keyboard

Platform (Win/Mac/Mobile)

Perfect for Work & Travel

Sleek, slim, lightweight and at only 498g, the Goldtouch Go! 2 Mobile Keyboard is the perfect work and travel companion for the on-the-go worke.

This clever compact keyboard is designed to optimise your workspace without sacrificing comfort over portability.

Posturite Numberslide

Evoluent VerticalMouse 4 (Right Handed Wired)

Ergonomic Design

Platform (Win/Mac/Mobile)

Right Handed Mouse

Many people find using a standard mouse uncomfortable. This is caused by the design of a standard mouse causing the arm to twist slightly so that the palm faces downwards. The Evoluent mouse takes the functionality of a standard mouse, whilst redesigning its positioning.

Evoluent VerticalMouse 4 (Right Handed S Wired)

Ergonomic Design

Platform (Win/Mac/Mobile)

Right handed Mouse with Smaller Design

The Evoluent mouse takes the functionality of a standard mouse, whilst redesigning its positioning completely to ensure that it is as comfortable as it can possibly be.

In order to do this the Evoluent mouse is held in a 'handshake grip'.

Evoluent VerticalMouse 4 (Right Handed Wireless)

Ergonomic Design

Platform (Win/Mac/Mobile)

Right handed Wireless Mouse

The Evoluent mouse takes the functionality of a standard mouse, whilst redesigning its positioning completely to ensure that it is as comfortable as it can possibly be.

In order to do this the Evoluent mouse is held in a 'handshake grip'.

Evoluent VerticalMouse 4 (Left Handed Wired)

Ergonomic Design

Platform (Win/Mac/Mobile)

Left Handed Mouse

The Evoluent mouse takes the functionality of a standard mouse, whilst redesigning its positioning completely to ensure that it is as comfortable as it can possibly be.

 In order to do this the Evoluent mouse is held in a 'handshake grip'.

Evoluent VerticalMouse 4 (Mac Wireless Bluetooth)

Ergonomic Design

Platform (Mac)

Wireless Mouse

The Evoluent mouse takes the functionality of a standard mouse, whilst redesigning its positioning completely to ensure that it is as comfortable as it can possibly be.

In order to do this the Evoluent mouse is held in a 'handshake grip'.

Evoluent VMC Right Handed USB

Ergonomic Design

Platform (Win/Mac)

Right Handed Mouse

The Evoluent mouse takes the functionality of a standard mouse, whilst redesigning its positioning completely to ensure that it is as comfortable as it can possibly be.

Style wise, there's no beating the Evoluent VMC.

OysterMouse Wired Ambidextrous Mouse

Adjustable for 5 Different Angles

Platform (Win/Mac/Mobile)

Prevents RSI & CTS

The Oyster Mouse can instantly adjust the mouse to 5 different angles to intuitively find the best posture for you.

Changing your wrist posture now and then helps you prevent Repetitive Stress Injuries (RSI) and most wrist discomfort such as Carpal Tunnel Syndrome (CTS)
